10th November 2021

Dear Parents,

R.E. Positive Lateral Flow (LFD) Test in Class 11

We have been informed today that a child who was in your son or daughter's class yesterday has tested positive for COVID on a LFD; the child had a cough.

As Lateral Flow (LFD) Testing is now regarded as about 92% accurate we thought it best to let you know and, given that our latest information has said that it is okay for under 11s to now use LFD tests, **we would advise that you Lateral Flow your child every few days for the next week.**

If your child does test positive on a LFD Test then please book a PCR test immediately and let the school know via email admin@swindonvillage.gloucs.sch.uk

The COVID symptoms are still

- Annoying/Persistent Cough
- Temperature
- Loss of Taste and/or smell

However, if your child is feeling under the weather, it may be best to keep LFD testing or even book a PCR test.

Many thanks

Mr G Mills
Head Teacher
