Dear Parents,

R.E. Positive Lateral Flow (LFD) Test in Class 3

I am writing to let you know that two children have unfortunately tested positive for Covid **on a LFD yesterday evening. They are now waiting for a PCR and are self-isolating.** Due to now have 5 plus cases, your Class will now bubble until we break up. They will be kept separate from the rest of the children, however, because of the extended drop off/pick-ups there will not be a different time to collect your child.

As Lateral Flow (LFD) Testing is now regarded as about 92% accurate we thought it best to let you know and, given that our latest information has said that it is okay for under 11s to now use LFD tests, **we would advise, in line with new Government guidelines, that you Lateral Flow your child every day for the next 7 days.**

If your child does test positive on a LFD Test or develops symptoms, then please book a PCR test immediately, isolate and let the school know via email admin@swindonvillage.gloucs.sch.uk

The COVID symptoms are still

- Annoying/Persistent Cough
- Temperature
- Loss of Taste and/or smell

However, if your child is feeling under the weather, it may be best to keep LFD testing or even book a PCR test.

Many thanks

Mr G Mills
Head Teacher
