

## Guidance for Parents and Children

**SVPS 'childcare' should be a last resort and the safest place for them is at home**

### Before coming to School

- Own clothes to be worn which are **fresh on daily, if children come in, in the same clothes the following day we will send them home to get changed**
- Thorough hand washing to take place at home just before leaving the home.
- Children should bring their home-learning and reading books with them
- All Children must be dropped and picked up through the main entrance. School will be open from 8am – 4pm daily.
- Children should bring their lunch or know who what they are going to eat
- No Parents to enter the main building – main entrance is fine

### During School

- Children must be registered as soon as they arrive [time to be recorded and sent to Government]
- Children will wash their hands as soon as they come into school
- Social distancing **will try to be** enforced as far as is possible whilst your child is at school.
  - No pairs or group activities. Individual work if possible...this is going to be tricky!
  - Wherever possible children will sit with 2 spare seats between them for breakfast and lunch and classroom activities
  - Children will sit in a space where they are not touching each other in the main hall
- All children will continue to follow COVID 19 guides on self-hygiene throughout the day...this will be reiterated at the beginning and throughout the day.
- If a child shows any symptoms of COVID 19 you will be contacted immediately (**Up to date contact details are a must**) The child will be kept on their own until you arrive...and will need to self-isolate at home for 14 days.

### Pick up and Things to do as soon as you get in from School

- Parents are to come to the main entrance and will be directed by a member of staff in the office. No parents will be allowed into school.
- Children will be brought to you.
- Staff will keep at least 2 metres from you...they are not being rude don't worry.
- Children are advised to take their clothes off as soon as they get home and these should be washed. Shoes are also advised to be cleaned if possible
- Children are advised to wash their hair before coming into school the next day.

### What happens if you become ill or develop symptoms of COVID 19?

- If you become unwell with coronavirus symptoms, you must **immediately** contact school and arrange for collection of your child.
- School **must** be informed if you no longer fall within the critical worker list or you have been asked to self-isolate.

### Big No No's

- We do not want to hear they have been **playing out with groups of friends or socially interacting at other friend's house...this is a big no, no!**
