

Coronavirus Home Learning – Year 1 – Class 3 and 4

Here are a list of websites and activities that will help your child with their learning while they are not at school.

English

- Continue to practice your school reading book and do your Ready Steady Read book review.
- Share books from home, discussing events and maybe choose a book to bring to the book swap on your return to school.
- Practise letter formation and writing on lines with a focus on the tall letters (ascenders) and the letters that go below the line (descenders). Don't forget to practise capital letters too.

Phonics

<https://www.phonicsplay.co.uk/freeIndex.htm>

Please use the free games and choose Phase 3, 4 and 5. This should be done daily for 20 mins (approx.)

Maths

- Play board games.
- **doodle maths** on the app using your login daily (you can do more than the set about each day and investigate the games section too).

Also maths games can be found for free at

<https://www.topmarks.co.uk/Search.aspx?AgeGroup=2>

Science

- Identify plants and other living things in your garden/home. Create a list of flowers/trees that are growing around you.
- Start to think about the changes we are already beginning to see for Spring e.g. blossom on the trees, flowers “springing” up etc.

Art

Draw some of the living things that are around us.

The tts group have made this printable booklet but it is 104 pages long. It is full of ideas and most pages you just read and the written response can be done on normal paper. You do not need to print this document but do use the ideas. Please note this is for year 1 and 2 and that some of the maths looks a little tricky. Scroll on to the foundation subjects too where there is computing, Art and other subjects including playing sleeping lions for mindfulness (when you wish for some peace)
